PROFILE

I am a dedicated Full Stack Developer and an AI/ML enthusiast with a passion for solving complex problems and meticulous debugging. Known for my discipline and timeliness, I bring a structured approach to every project while delivering innovative and efficient solutions. With a relentless drive to explore the ever-evolving tech landscape, I'm committed to building cutting-edge applications that make a meaningful impact.

SKILLS

- **Python:** I am an intermediate Python developer with a strong foundation in programming
- **Javascript:** A expert in javascript with more than 2 years of coding.
- **MERN:** I use MERN stack for developing webApps.
- **React-Native:** Beginner in react native and continuously improving my cross-platform development skills.
- **AWS:** Skilled in leveraging AWS for scalable and efficient cloud solutions.

PROJECTS ([GitHub](#))

1. **GenAI Chatbot:** I developed a generative AI chatbot using Python and the Groq API, designed to deliver efficient, context-aware, and conversational experiences. It leverages advanced algorithms to process user inputs seamlessly, offering insightful and personalized responses.
2. **ToDesktop Clone:** Built a ToDesktop website clone using Tailwind CSS, ensuring a sleek, responsive, and modern design with clean, maintainable code for an optimal user experience.
3. Checkout the [github](#) profile for more..
